**SUBJECT:** **Anchorpanel perimeter foundation**

Dear Mr. Butler:

Received the literature on the Anchorpanel foundation system and information regarding evaluations of the system, and the information has been reviewed. A discussion with the Single Family Housing Program Director indicated he would not turn down a USDA Rural Development loan if this product were used in conjunction with a manufactured single family home. As with all construction and products, it would have to meet all applicable building codes and building standards. It should be noted that USDA Rural Development cannot endorse any products.

If you have any questions, please feel free to contact me.
